

# Developers Survey 2019 Analysis

Jallal Isa

9/05/2024

# OUTLINE

---

- Executive Summary
- Introduction
- Methodology
- Results
  - Visualization – Charts
  - Dashboard
- Discussion
  - Findings & Implications
- Conclusion
- Appendix

# EXECUTIVE SUMMARY

---

- Current Technology Usage
  - Language
  - Database
  - Platform
  - Web Frame
- Future Technology Usage
  - Language
  - Database
  - Platform
  - Web Frame
- Demographic Survey
  - Gender
  - Country
  - Age
  - Education level

# INTRODUCTION

---

- Analyze trends in technology for developers around the world
- Goal of the Analysis - Identify the followings:
  - Top programming languages
  - Top databases
  - Top platforms
  - Top web frames
- Targeted Audience:
  - Developers
  - Information technology workers
  - Computer science community

# METHODOLOGY

---

- Data Source – Dataset
  - Stack Overflow 2019 Developer Survey
  - Job Postings
- Languages Used
  - Python
  - SQL
- Data Cleaning
- Data Exploration
- Data Visualization
  - Python libraries
  - IBM Cognos Analytics
- Presentation

# RESULTS

	Respondent 	Language...kedWith 	LanguageDe...eNextYear	DatabaseWorkedWith	DatabaseDe...eNextYear	PlatformWorkedWith
	4	C	C	MySQL	MySQL	Linux
	4	C++	C#	SQLite	SQLite	Windows
	4	C#	JavaScript	Null	Null	Null
	4	Python	SQL	Null	Null	Null
	4	SQL	Null	Null	Null	Null
	9	C#	C	PostgreSQL	Redis	Docker
	9	Python	Ruby	Null	Null	MacOS
	9	Ruby	Rust	Null	Null	Slack
	9	SQL	TypeScript	Null	Null	Null
	13	PHP	Rust	MySQL	Null	IBM Cloud or Watson

# PROGRAMMING LANGUAGE TRENDS

## Current Year

Top 10 Languages worked with

## Next Year

10 Languages desired for next year

# PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

---

## Findings

- SQL is the top one
- Python and Java are getting popular
- Scala and R are the least desired
- C# is less desired compared to next year trend

## Implications

- Python and SQL are crucial for developers
- Scala looks to remain as one of least favorites for tech industry
- Platforms where a language is used to write has impact on the overall trend

# DATABASE TRENDS

## Current Year

Top 10 databases worked with

## Next Year

Top 10 Databases desired for next year

# DATABASE TRENDS - FINDINGS & IMPLICATIONS

---

## Findings

- MSQL and SQL Server are very favorable
- Couchbase looks to be the least favorite for respondents
- MongoDB is getting popular among developers

## Implications

- Non-Relational DBs like MongoDB are becoming widely used
- Relational DBs like MYSQL appear to be still the favorites
- Big data technology will still need both, relational and non-relational DBs

# Current Technology Usage

Top 10 Languages worked with

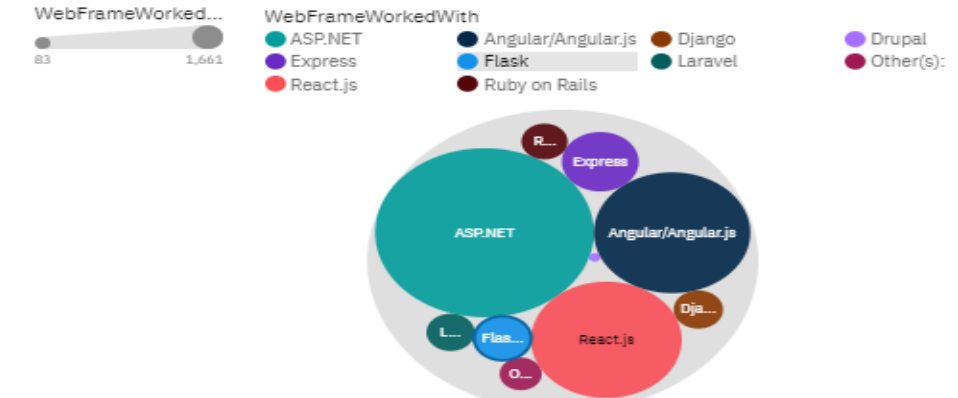

Top 10 databases worked with

Platforms worked with

Top 10 web frames worked with

# Future Technology Trend

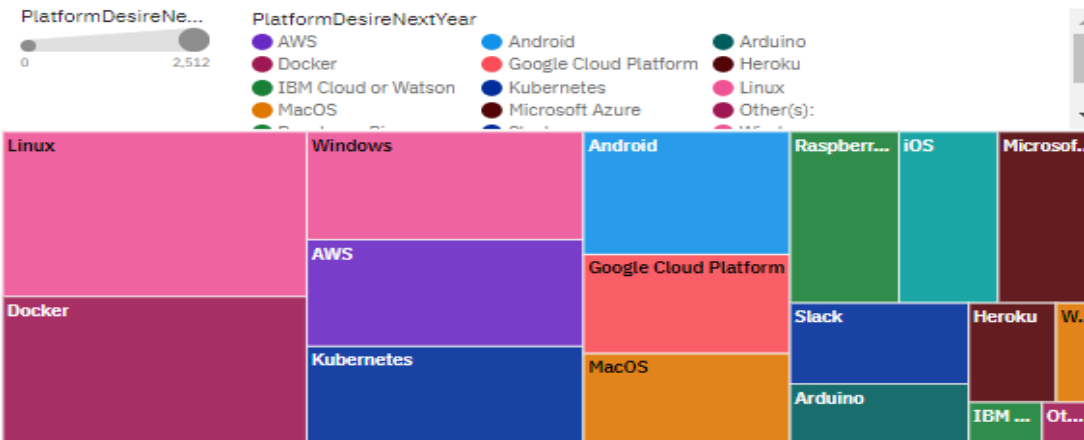

10 Languages desired for next year

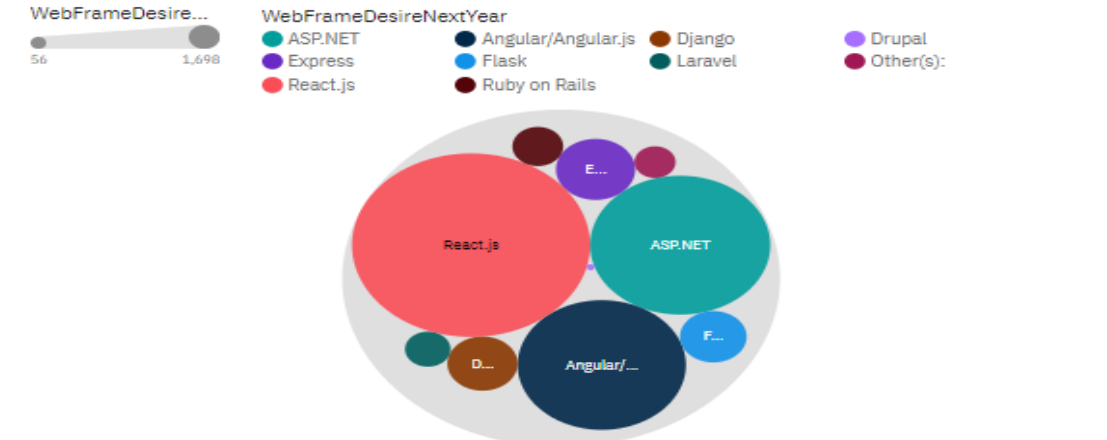

Top 10 Databases desired for next year

Platforms for next year

10 Web Frames for Next Year

# Demographics

## Respondents by Gender

Gender  
● Woman ● Man

## Respondent Count by Age

# DISCUSSION

---

- Technology Usage and Future trends
- Factors such as Gender, Age, Education
- Technology gaps in developing nations
- Skills and impact of training

# OVERALL FINDINGS & IMPLICATIONS

---

## Findings

- Technology changes in fast pace
- Platforms like AWS are growing
- Massive gender gaps in tech

## Implications

- Developers must adapt to latest technologies
- Developing countries can benefit from advanced ones in tech
- More room should be open to close gender gaps in tech, this include training, bonuses

# CONCLUSION

---

- Technology Trends and Future
- Programming Languages, platforms, databases and web frames
- Demographic factors and their impact on tech industry
- Education, training and skills
- Future of AI on technology

# APPENDIX

---

- IBM Skills Network:
- Allows you to build your skills
- Allows to work with tools such as JupyterLabs, RStudio and more
- In JupyterLabs, it allows to download DBs, import libraries, write code and make visualizations such as charts

# JOB POSTINGS by Programming Language

# POPULAR LANGUAGES by Salary
